TB Monthly Program Training Schedule

Latent TB Infection: 6/22/2022 @ 1:00 p.m.

Welcome to the monthly training series provided by the TB program at IDPH!

After completing this training participants will be able to do the following:

- List the groups of people who should receive high priority for LTBI treatment.
- Describe treatment regimens for LTBI.
- Describe the principles of preventing drug resistance.
- Describe patient monitoring during LTBI disease treatment.
- Describe TB treatment adherence strategies.
- List the common adverse reactions to the drugs used to treat LTBI and TB disease.
