Setting up the Cloud

Control Solutions Vaccine Temperature Monitoring Cloud (VTMC)

Control Solutions
Vaccine Temperature Monitoring Cloud
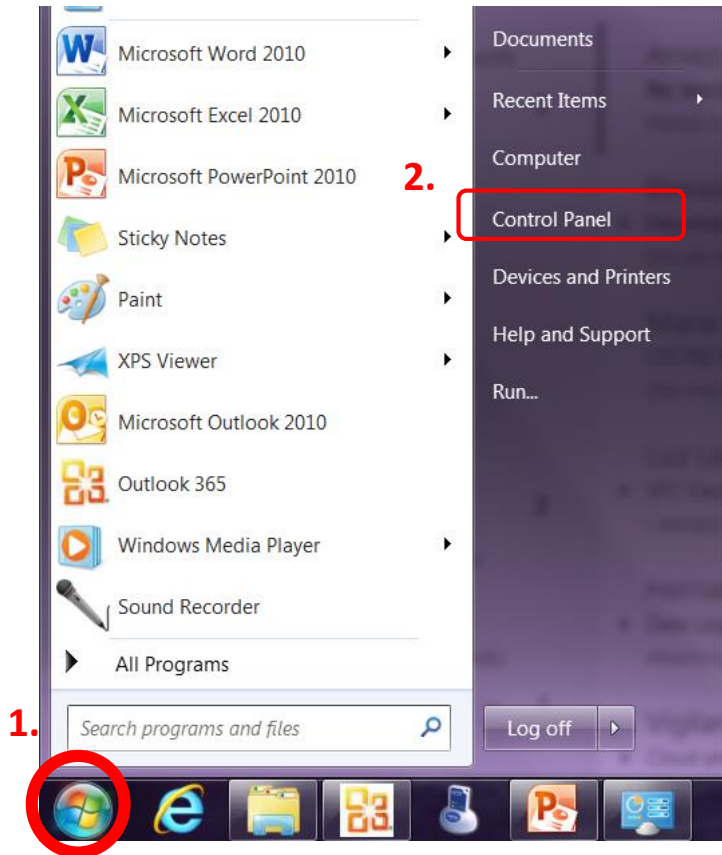

Table of Contents:

Step 1: Uninstall Previous Software

If you have a previous version of the software on your computer, this must be **<u>uninstalled</u>** in order for the Cloud to work
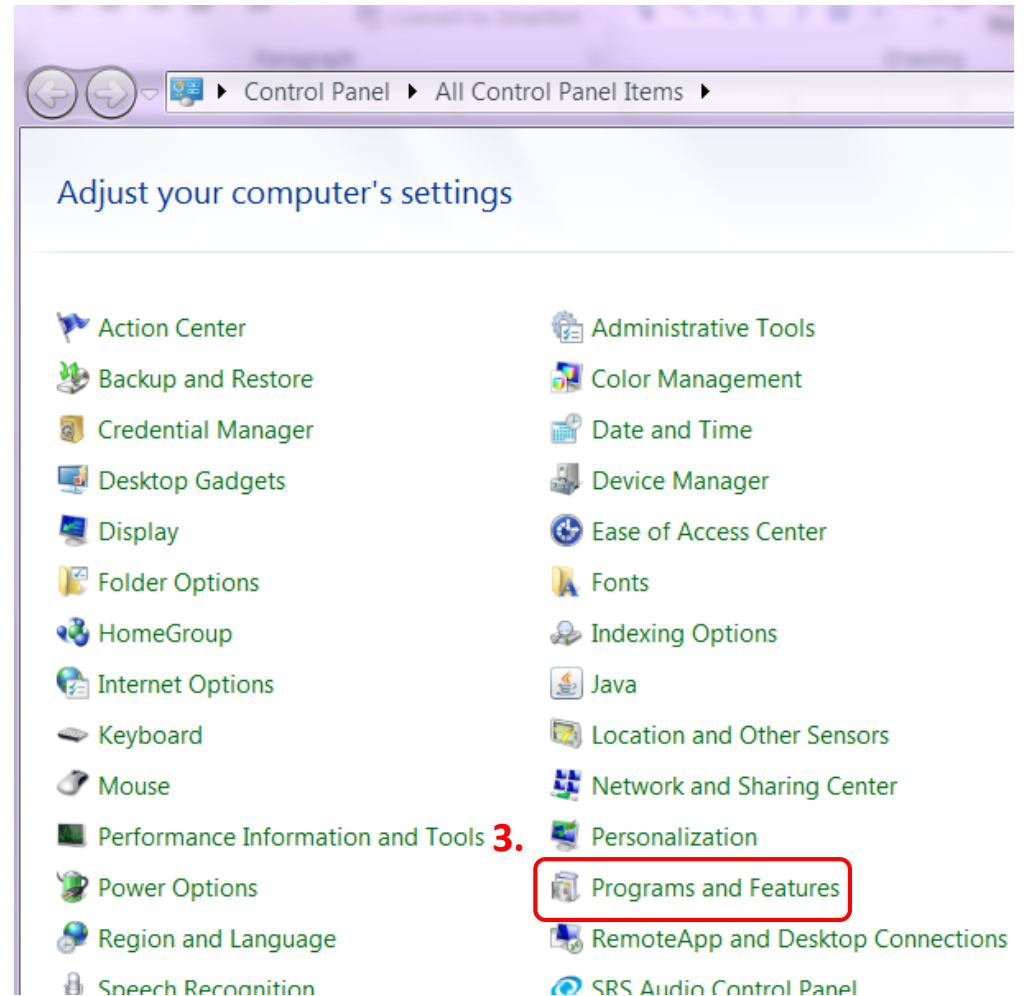

Step 1: Uninstall Previous Software

1. Click the **Start menu**
2. Select "Control Panel"

3. Open "Programs and Features"
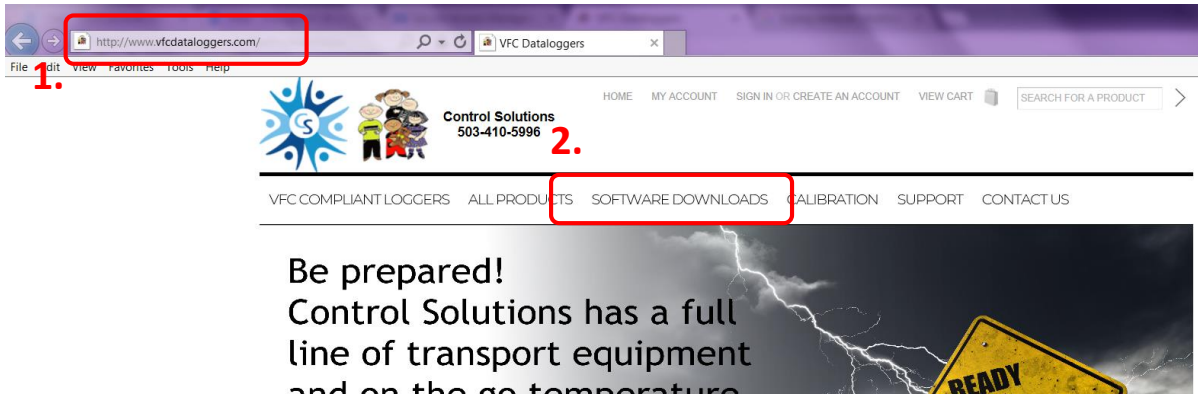

Step 1: Uninstall Previous Software

4. Right click "LogTag Analyzer"
5. Click "**Uninstall**"

6. Follow the guided steps on your computer to uninstall the previous versions (either **Control Solutsions VTMC** OR **LogTag Analyzer** program)

Step 2: Download Updated "Control Solutions VTMC"

1. Go to http://www.vfcdataloggers.com
2. Click on "Software Downloads"
3. Download **VFC 400 Software (VTMC)**

SOFTWARE DOWNLOADS

From: C:\Users\378867\AppData\Local\Temp\Temp1_csvtmc_26...

Run   Cancel

Click run

While files from the Internet can be useful, this file type can potentially harm your computer. Only run software from publishers you trust. What's the risk?

Download & Installation (cont'd)

7.

Click Next

8.

Click "I accept" and then click Next

9.

Click Next

10.
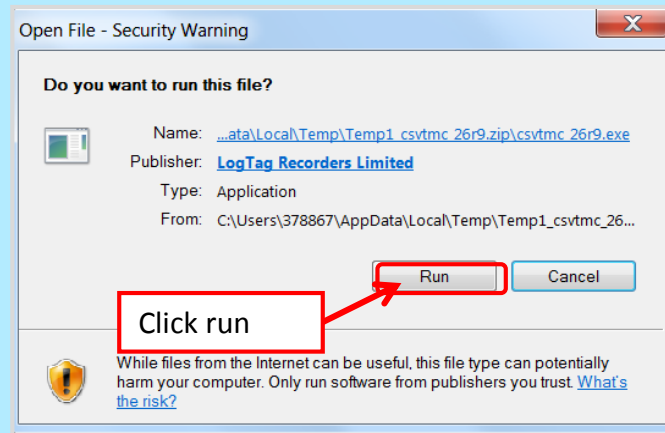

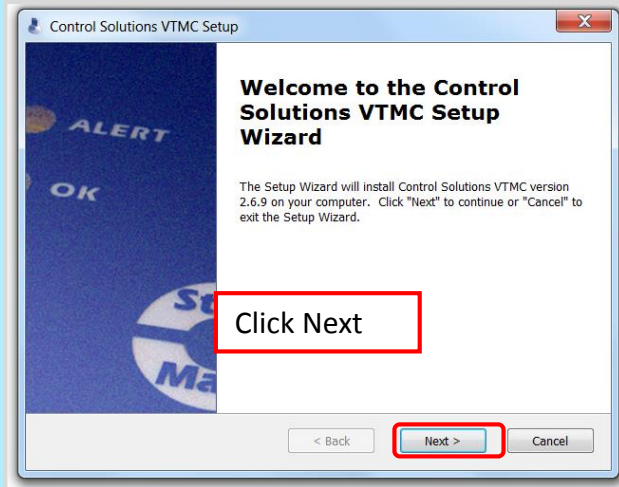

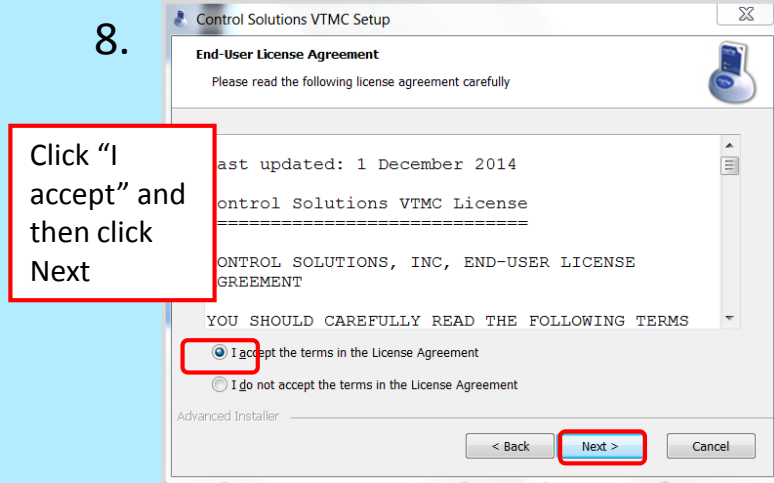

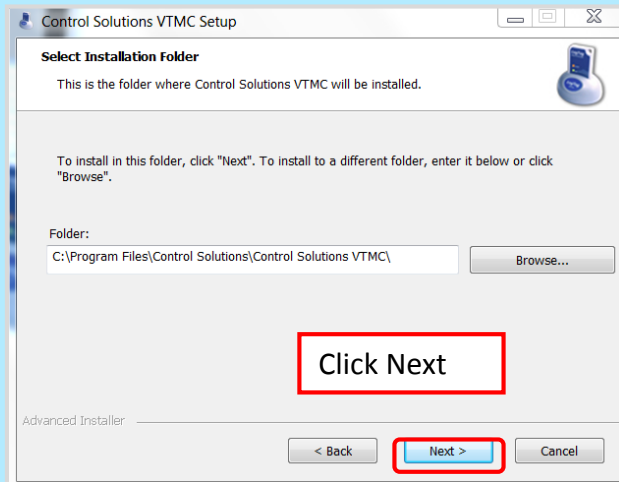

Click Install

Download & Installation (cont'd)
11.

Click Run

12.

Click Finish
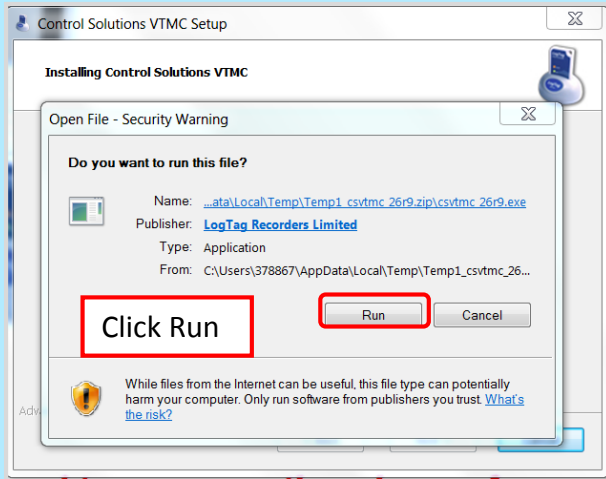

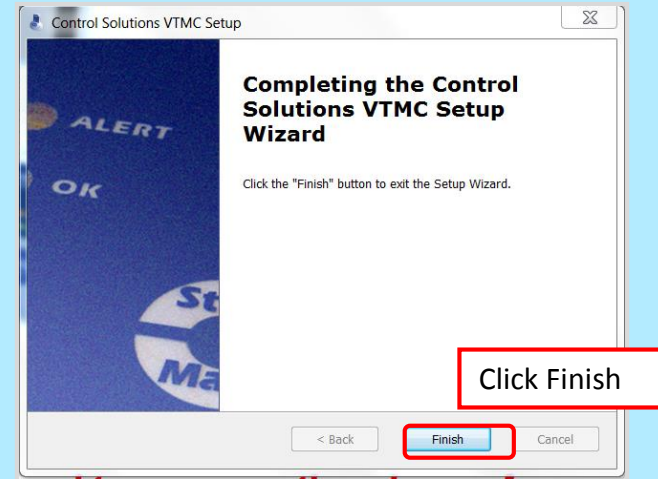

Download and installation complete!
This icon will appear on your desktop.

Step 3: Set up and Test the Connection

1. Click "Edit" and then "Options"

Control Solutions VTMC 2.9 Build 5

File Edit LogTag Help

1. Options...

Step 3: Set up and Test the Connection
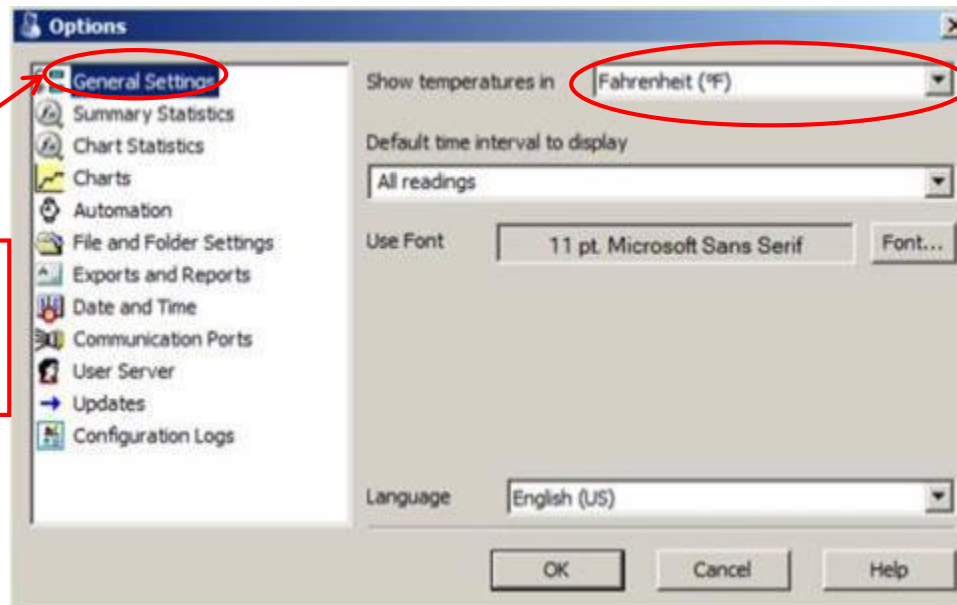

2. Select General Settings in the options list

3. Select Fahrenheit or Celsius*

DO NOT click "OK" until all options in the option list are selected!

*Select this based on what your clinic records on the temperature logs

Step 3: Set up and Test the Connection

4. Click on File and Folder Settings

5. Click the three dots next to Folder. This is where your data will automatically save. Choose which folder you want your data to automatically save to.

Option 1. If your practice has a shared drive, we recommend that you save the data there. If not, save it to a folder that more than 1 person can access.

Option 2. Save your data under "My documents." Click on the folder called "My LogTag Data."

# Step 3: Set up and Test the Connection
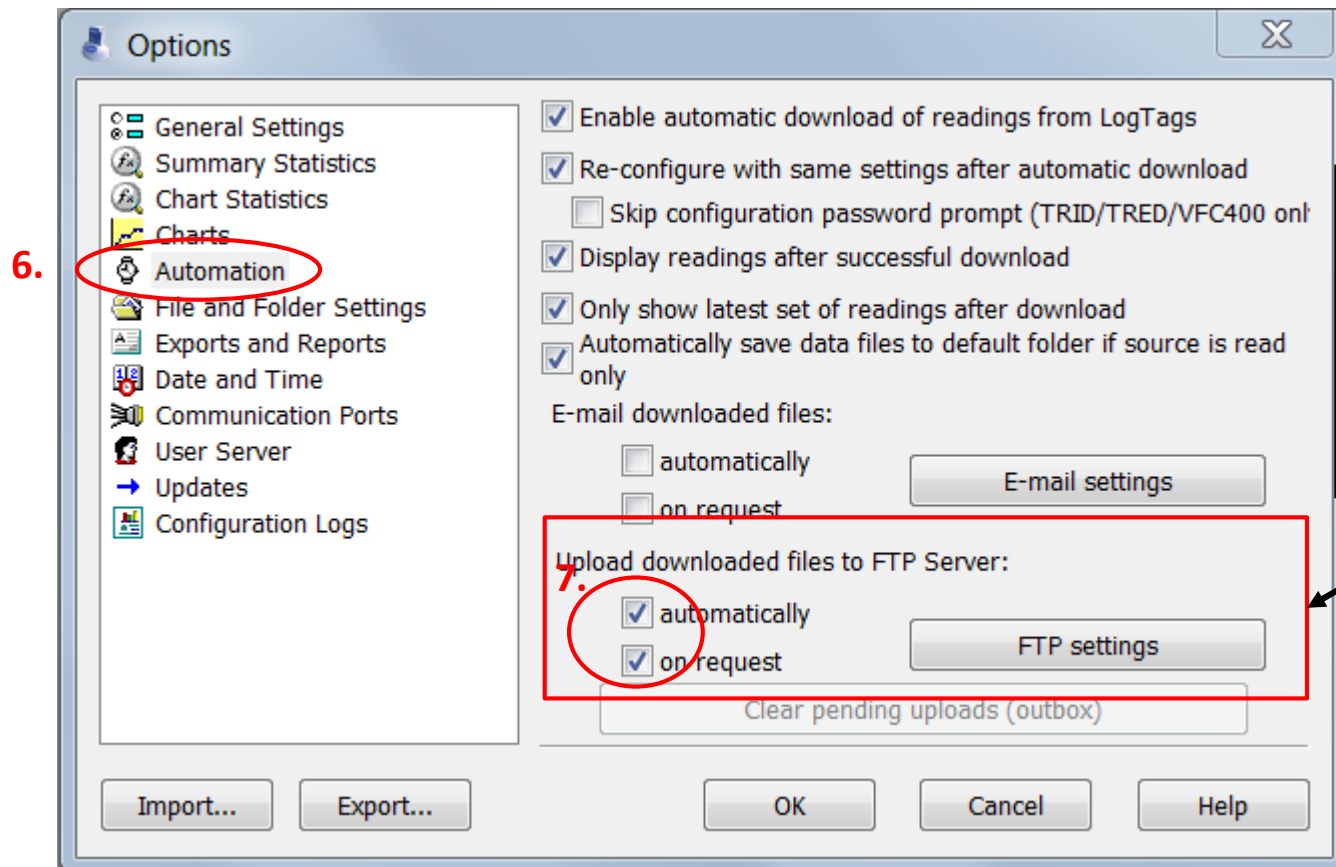

6. Click **Automation**
7. Ensure both "automatically" and "on request" are CHECKED**

**Note: These may already be checked when the updated software is downloaded. If this is the case, no action is needed
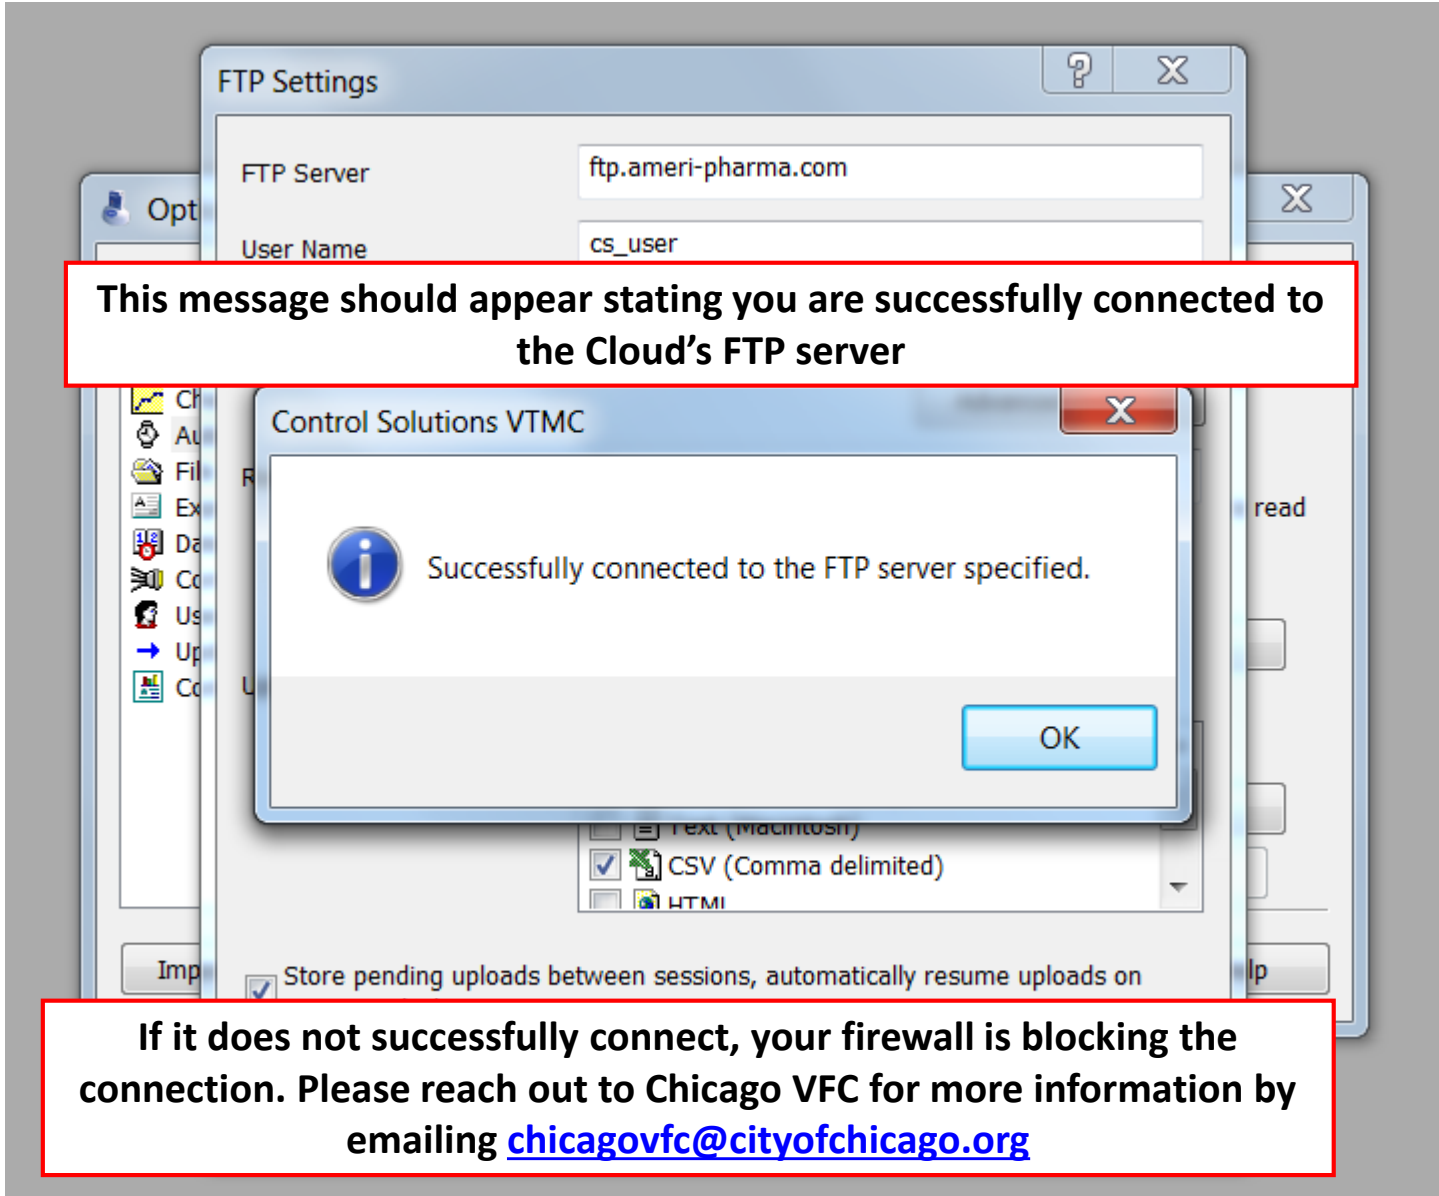

Step 3: Set up and Test the Connection

These 3 sections should have this information already populated. If not, reach out to chicagovfc@cityofchicago.org

FTP Settings

FTP Server: ftp.ameri-pharma.com

User Name: cs_user

Password: ••••••••••

Advanced Settings

Folder: files

☐ Create folder

8. Test connection

Upload file in the following

☐ LogTag File (.ltd)
☐ Text (Tab delimited)
☐ Text (Macintosh)
☑ CSV (Comma delimited)
☐ HTML

☑ Store pending uploads between sessions, automatically resume uploads on program startup

OK   Cancel   Help

8. Click "Test connection" if all fields are already populated
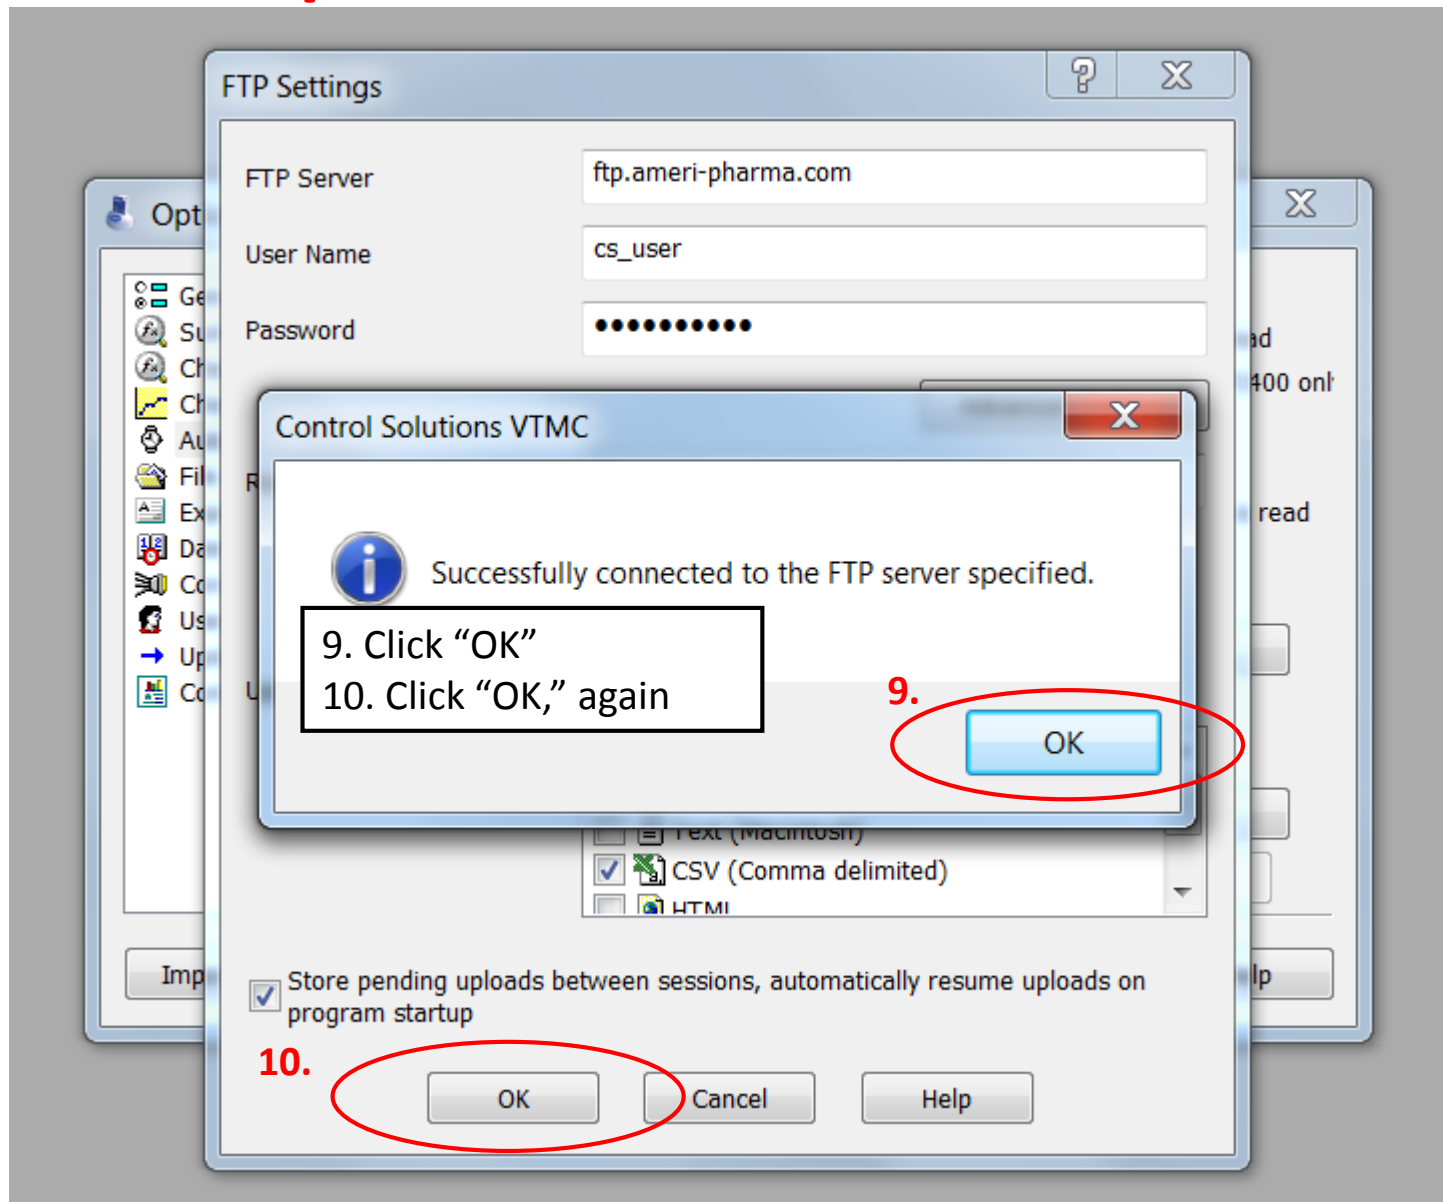

Step 3: Set up and Test the Connection

This message should appear stating you are successfully connected to the Cloud's FTP server

FTP Settings

FTP Server: ftp.ameri-pharma.com

User Name: cs_user

Control Solutions VTMC

Successfully connected to the FTP server specified.

OK

CSV (Comma delimited)

Store pending uploads between sessions, automatically resume uploads on

If it does not successfully connect, your firewall is blocking the connection. Please reach out to Chicago VFC for more information by emailing chicagovfc@cityofchicago.org

Step 3: Set up and Test the Connection

FTP Settings

FTP Server: ftp.ameri-pharma.com

User Name: cs_user

Password: ••••••••••

Control Solutions VTMC

Successfully connected to the FTP server specified.

9. Click "OK"
10. Click "OK," again

9. OK

☑ CSV (Comma delimited)

☐ HTML

☑ Store pending uploads between sessions, automatically resume uploads on program startup
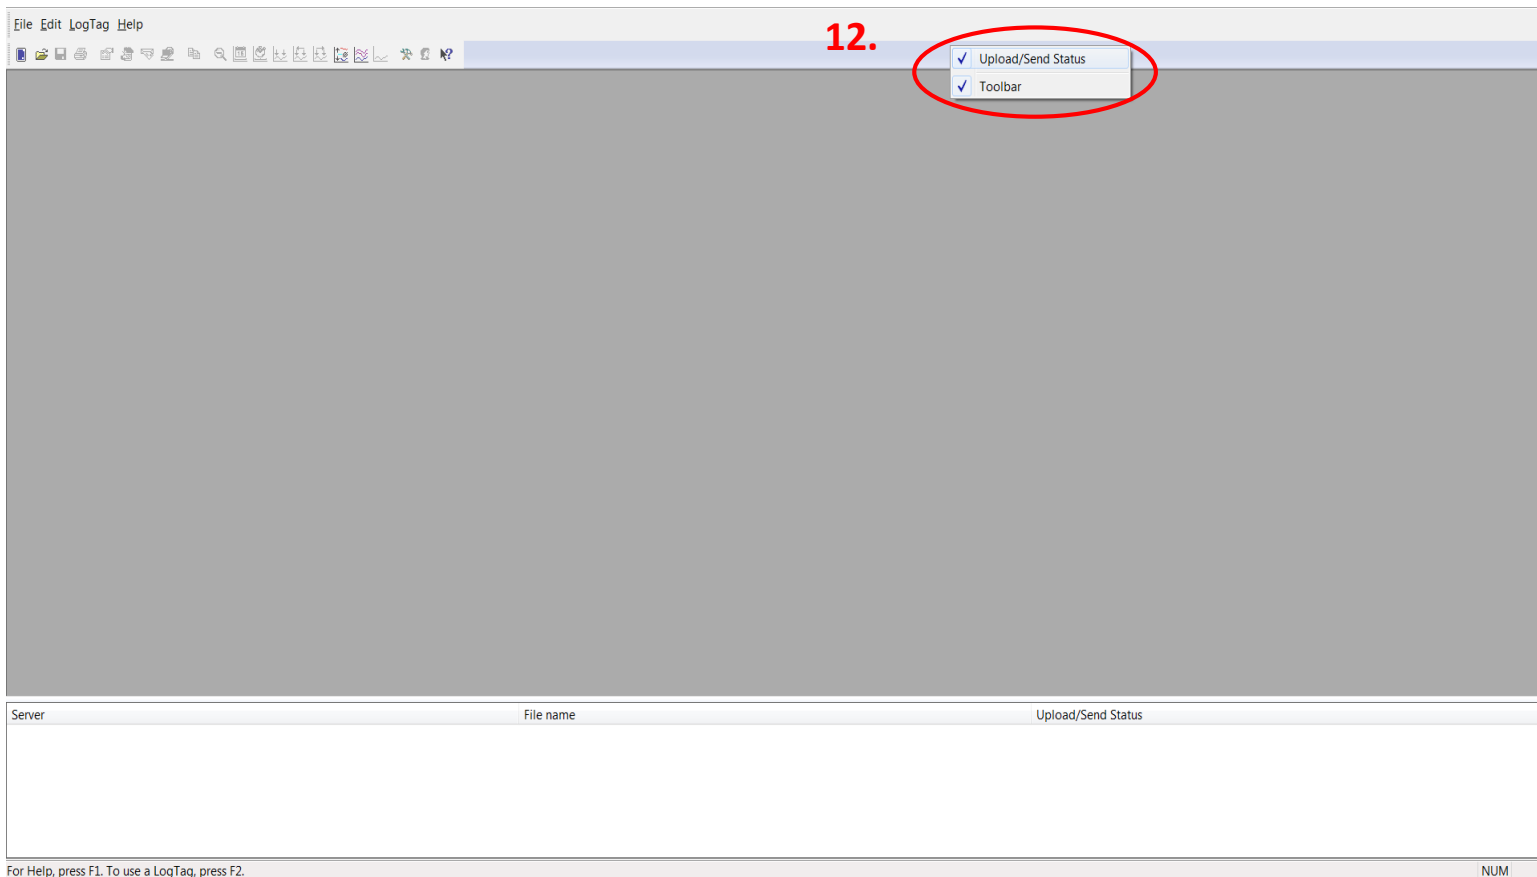

10. OK Cancel Help

Step 3: Set up and Test the Connection
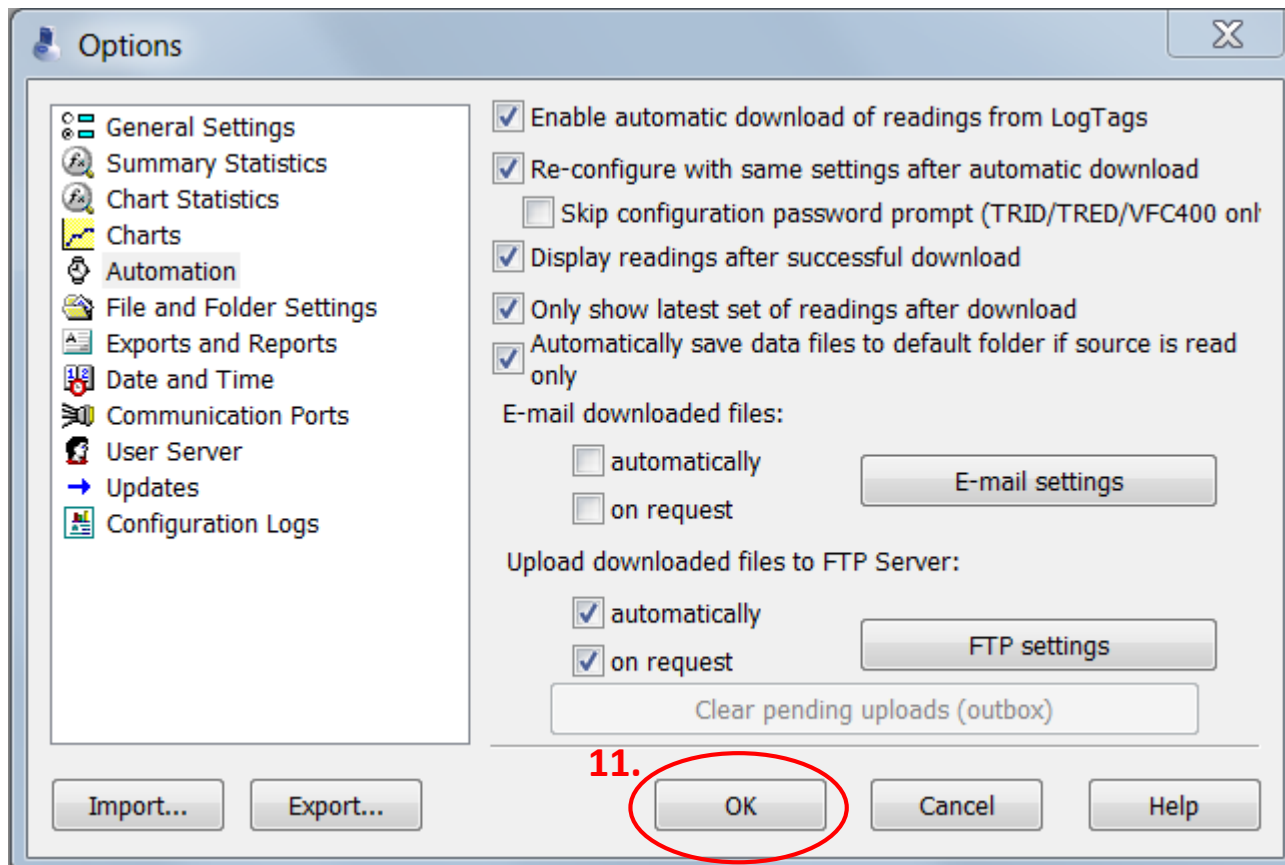

11. Click "OK"

Step 3: Set up and Test the Connection

9. Right click on the right-hand side of the upper menu for a drop-down menu to appear. Make sure "Upload/Send Status" is checked

Step 3: Set up and Test the Connection
Download the DDL to test the connection:

13. Connect the USB Interface cradle to the computer:

      (If it is not already connected)

14. Insert recorder into cradle:

Data is automatically downloaded and saved. | You will see this animation:

> A new LogTag has been detected in the interface. Please wait while its readings are downloaded.
> There are 1 remaining LogTag(s) to download.
>
> Cancel

15. Click OK when you are notified that the recorder has been reconfigured:

> LogTag Analyzer
>
> Logger has been re-configured.
>
> OK
Step 3: Set up and Test the Connection

**16.** Your data report should appear

17. A status message will appear in the space at the bottom of the screen:
  *It MUST say " Connected" and "Successful" for the data to have uploaded

Step 3: Set up and Test the Connection

Congratulations! Your DDL data has been uploaded to the Cloud!!

Additional Information

- You can view your uploaded data by visiting https://vtmc.ameri-pharma.com/
    - Use your email address that you submitted on the form to log in
    - First-time password is based on your name:
        - Name: Dog Lover
        - Password: DLover123

- The files are uploaded based on DDL **serial number**
    - Found on the back of the data logger:
        - S/N example = 1860917494

- **If this changes** (new DDL is purchased, primary DDL is out for recalibration, etc.) **please email chicagovfc@cityofchicago.org with the replacement serial number…otherwise, the data will not go to the Cloud**
