

VFC311 DATA LOGGERS

Why VFC311?

The VFC311 WiFi measures vaccine temperature data wirelessly over any compatible Wi-Fi network and can be viewed on any internet-enabled device, via browser or free mobile app (requires cloud service). VFC311 will safeguard your vaccine stock, allow automatic temperature recording, and enable more time for staff to deliver quality patient care.

How can you enroll in the VFC311 Cloud Service?

- Complete a Cloud Service Information Form and return it to ChicagoVFC.
- Prepare office and staff for virtual consultation on VFC311.
- Coordinate with Control Solutions on cloud billing options for VFC311.
