VTMC Cloud Checklist

Please check for the following when downloading data:

- ☐ Check serial numbers are accurate (cloud & on loggers)

- ☐ Use Control Solutions VTMC 2.9 Software Build 11

- ☐ Have successful test connection to FTP Server

- ☐ Uploads are set to AUTOMATICALLY AND ON-REQUEST (under FTP Settings)

- ☐ Loggers are reconfigured for next use

- ☐ Check upload status window says "successful" upload and connection

- ☐ Verify updated last upload status on VTMC cloud dashboard (vtmc.ameri-pharma.com)

VTMC REMINDERS

- ☐ Upload vaccine temperatures into the VTMC cloud BIWEEKLY (MONTHLY THE LATEST!)

- ☐ Vaccine temperature data stays within VTMC, it does NOT go into ICARE

- ☐ Notify ChicagoVFC when serial numbers are changed (ex: primary loggers are replaced with backups, loggers are sent for recalibration, or new loggers are purchased)

For any questions or concerns, please reach out to chicagovfc@cityofchicago.org
